HEALTH CAREERS HIGH SCHOOL

SUMMARY

A multimedia designer passionate about efficient problem-solving, effective storytelling, and quality work. I have a strong background in print and web design, and experience with video, motion design, and 3D.

My diverse skill set, experience with various industry professionals, and willingness to learn has helped bring success to projects I've worked on, both as an individual and as a team player. I'm in search of a team where I can achieve personal and common goals with dedication, dependability, and strategy.

SKILLS

Published and awarded for graphic arts, alongside development of organizational systems, business ethics, client relations, time management, leadership initiative, communication, and technical skills.
