SUMMARY

A multimedia designer passionate about efficient problem-solving, effective storytelling, and quality work. I have a strong background in print and web design, and experience with video, motion design, and 3D.

My diverse skill set, experience with various industry professionals, and willingness to learn has helped bring success to projects I've worked on, both as an individual and as a team player. Currently in search of a team where I can achieve personal and common goals with dedication, dependability, and strategy.

SKILLS

Published and awarded for graphic arts, alongside development of organizational systems, business ethics, client relations, time management, leadership initiative, communication, and technical skills.

To Whom It May Concern:

I had the pleasure of supervising over Kevin Hudson during his internship with City on Fire. During that time, I developed a very high regard for Kevin as a talented designer and enthusiastic team member based on his contributions to our firm.

Kevin exhibited a genuine passion and great initiative for the projects assigned to him. He was able to follow complex directions with thoroughness and efficiency. Based on his outstanding performance on small projects, we offered Kevin the opportunity to design full-scale web sites for two of our clients towards the end of his internship.

While City on Fire does offer as much work experience to our interns as possible, we do not normally assign such large projects without close supervision. However, Kevin expressed such great technical skill, creativity, and leadership that we felt we could trust him with this opportunity. He countlessly demonstrated his aptitude to work well independently and delivered quality work in a precise and error free manner.

I give Kevin my highest recommendation as an extremely capable and bright designer and creative professional. I am confident that he will be an asset to your team. Please feel free to contact me if you have any questions regarding Kevin's work with City on Fire.

Regards,

Daniel Perlaky
creative director, City On Fire
